JUDGE ROTH IS DEFENDANT IN $10,000 DAMAGE SUIT

(Special to Record-Herald)

MARTINEZ, April 12.—A $10,000 damage suit for false imprisonment placed against Justice of the Peace John Roth, Constable John Gregory and their bondsmen, W. S. McRacken and Julius Stiefvater, all of Richmond, by George Knabe of this city was commenced before Superior Judge R. H. Latimer today.

Attorneys Wilbur Pierce, W. S. Robinson and W. D. Grady are representing Roth, Gregory and their bondsmen while F. B. Taylor is appearing for Knabe.

Knabe alleges Constable Gregory to have falsely arrested him on July 17, 1914 upon the complaint of Ralph Hand a Richmond grocer.

He claims to have been kept at the city jail for the night and that unlike other civil arrests Hand was not compelled to place a $500 bond for his imprisonment.

Attorney Frank Smith, deceased, is charged by Knabe with having represented Hand.

Knabe was recently given judgement against the defendants but upon an application of Attorney Pierce representing Roth the case was submitted to a jury trial.

NOTHING REAL SINCE WAR STARTED

If you should go on a picnic in a red dress some hot summer day this year and come back in pink—don't kick.

If your dressmaker shows you a nice orange color trimming when you order the dress and it is a jaundice yellow when you get it—don't complain.

If, with a nice, new black derby you go out for a stroll in the park and the hat it gray when you come home—don't be angry.

And, instead of the old "23" or "skiddoo," those pretty expressions which were the vogue some time ago, you may now say, if you use slang, "Fade away—you're out of dye."

The American Association of Clothiers has announced that hereafter suits may fade in color. The reason is that no more coal tar dyes can be imported from Europe.

PARTISANSHIP THE RULE

The New York World opines that it may be the almost universal opposition of Republicans in the United States senate to the confirmation of Mr. Brandeis as a justice of the Supreme court rests to some extent upon prejudices of birth and faith, but a stronger reason is to be found in the needs of the party itself.

The objections to Mr. Brandeis' elevation to the bench have been such as to appeal strongly to Republicans of every shade of opinion. So far as we know, not a word has been said publicly against his race or his religion. What has filled Republicans everywhere with dismay is the charge boldly presented by representatives of invested, speculative and predatory wealth that in his political and legal views he is to advanced to be safe and dependable as a judge.

It is this sort of thing that is doing more than all else to reunite the Republican party. The theory that the rich and well-favored have a prescriptive right to enact laws and interpret laws in their own interest has become a fundamental of latter-day Republicanism. When that cry is raised past differences are forgotten and factions once hostile embrace as brothers.

Privilege and plunder are wonderful harmonizers. With subsidy in view, they are working at Washington to defeat the plan by ship purchase and construction to provide a nucleus for a sorely needed merchant marine. To safeguard monopolies of long standing, they are fighting the establishment of national armor plate and nitrate plants. In behalf of exploiters possessing lands, mines and concessions in Mexico, they are shrieking for war and conquest.

With this spirit everywhere visible and protective tariff associations and home market clubs making ready for their quadrennial fat-frying, why should not Messrs. Roosevelt, Root and Lodge put aside the bitter memories of 1912 and break bread together? And how can the financial districts of Boston and New York exhibit their friendliness more charmingly than by mobilizing their corporation attorneys at the capital to cry down a lawyer whose lack of respect for vested wrongs is notorious?

Mr. Brandeis is to owe his confirmation to a partisan vote not because he does not deserve more generous treatment but because by such attacks as that made upon him Republican unity is to be promoted and plutocratic check books placed under contribution. In this fashion the Republican get-together platform is being written every day, and the more pronounced it becomes in its resistance to popular rights and in its hostility to men efficient in public service the better is the prospect of the reunion is the prospect of the reunion which the bosses all seek.

There never would have been any split in the party if both wings, in the heat of a personal quarrel, had not momentarily forgotten that for a quarter of a century there has been no Republican cohesion except upon schemes involving legalized greed and graft.

Considering the explosive nature of war munitions, it wasn't surprising that the house majority caucus decided to leave its members free to vote as they pleased on all proposed legislation dealing with them.

AMERICAN GENIUS AND WAR

The Portland Oregonian calls attention to the fact that the extent to which American ingenuity has been employed to overcome shortages caused by the European war in materials used in large quantities is not generally realized. Who would suppose that had not substitutes been devised the telephone service of the country would have been impaired? Yet the annual report of the directors of the associated Bell telephone companies shows that serious difficulties have been met and overcome. Strips of specially prepared paper of great length are utilized in the insulation of the wires in telephone cables. The yearly expenditure for new cables is from $10,000,000 to $12,000,000, and in some years the insulating paper strips used would aggregate in length 2,000,000 miles. It was necessary to devise substitutes for this paper under conditions when an error in judgment might cause serious failure in the cable plant. The problem was satisfactorily solved. Likewise the engineering department of the company successfully overcame shortages in dyestuffs used for insulating material, in chemicals for batteries, in contact materials and in a fine hair-like insulated iron wire used in the manufacture of loading coils. Of the last-named material, as much as 900,000 miles is newly employed in some years.

A woman may be able to do any work a man can, but it's a cinch she can't while wearing one of these armored corsets pictured in magazine ads.

American ideals may eventually bridge the Pacific, as the Chinese minister says, but it will be some time before the bridge is open to traffic.

How many Republican editors have declared that, if Roosevelt had been president, this country would have been involved in war with both Mexico and Germany? Hundreds of them, and the same bunch will use their efforts to elect him if he lands the Chicago nomination.

The foreigners who come to America and cannot stand its glorious, white heat of patriotism, have our permission to return where war crazed kings, lords, Dukes and duke's mixtures do all the thinking for the common herd.

If those using Hughes talk and sentiment for a cloak don't watch out they may overply their hand and actually get him nominated.

Neither Gen. Funston nor Gen. Pershing has yet began to disturb the timid as that old-time political bugaboo, the "man on horseback."

To boil it down, Woodrow Wilson, represents peace, democracy and liberty—the three cardinal principles upon which the United States republic has been established. Theodore Roosevelt is the very embodiment of demagogy, war, jingoism, imperialism, Prussianism and dictatorship. It is to be hoped that the American people will have the opportunity to declare in most emphatic terms its judgment on the merits of the respective standard-bearers.

If a way to quit without being accused of showing the white feature could be found, the war would soon be over.

AT RICHMOND THEATRE

Blanche Sweet, one of America's foremost photodramatic stars, will be seen at the Richmond theater tonight, in the Jesse L. Lasky production of "The Black List," the thrilling drama of social conditions written especially for her by two of the country's most famous playwrights, Marion Fairfax and Wm. C. DeMille. It is a Paramount picture.

The beautiful Blanche Sweet, since she has been with the Lasky company, has been seen in many unusual roles, but as Vera Maroff, the school teacher in a small mining town, she is said to portray a role entirely different from anything in which she has heretofore appeared.

"The Black List" is a daring indictment of the working conditions of big corporations as the exist in many states. Vera is the daughter of a mine worker who is the head of Russian anarchist, contemplating the overthrow of the corporation. How the little school teacher, after her people have been shot down by the mine-guards for refusing to work under the terrible conditions of the "Black List," changes the entire policy of the great corporation and brings the president to her feet, must, naturally be seen to be enjoyed. This photodrama is said to deliver a lesson to the working classes in a far more graphic and vivid manner than could be told from the pulpit or stage.

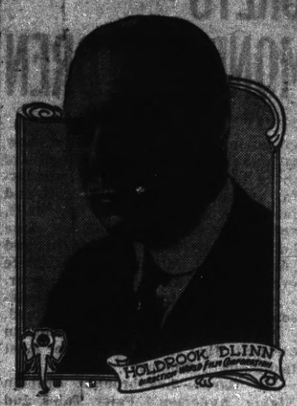
Supporting Miss Sweet is a cast of unusual excellence, headed by Chas. Clary, the distingnished American actor, who recently appeared prominent in the support of Fannie Ward in the Jesse L. Lasky production of "Tennessee's Partner" and who is one of the most popular actors now appearing on the screen.

Horace B. Carpenter, the popular character actor of the Lasky company, who recently achieved such success as the disreputable husband pi the "Golden Chance" is also seen prominent in the support of Miss Sweet.

Others in the cast are Ernest Joy, Wm. Elmer, Lucian Littlefield, Jane Wolf and other members of the Lasky all-star stock company.

The production is of the usual excellent Lask order, the exterior scenes being taken in a well known mining town which was rented for three entire days by the Lasky company.

AT THE REGENT THEATRE



Holibrook Blum and Vivian Martin are featured in "A Butterfly on the Wheel." The story briefly told is as follows:

Peggy Admaston and her husband are wealthy and should be happy, but after the honeymoon Admaston neglects his beautiful young wife for the cares of business. The result is that the wife is left to amuse herself as best she can and becomes a gay little butterfly. The social season throws Peggy much in the society of Collingwood, "a friend of the family," and matters progress until each day brings new protestations of love from Collingwood to which Peggy listens unwillingly.

Lady Atwill, Peggy's most intimate friend, aids Collingwood's suit in every way. Admaston's suspicion's are first aroused when a theater which he is attending burns down and he hastens home to find Peggy, who had complained of illness, entertaining Collingwood in her boudior.

Tomorrow a rare treat is promised in the screamingly funny five act story featuring Otis Harlan in Hoyt's "A Black Sheep."

INJURED

J. W. Cramer, formerly employed at the Standard Oil refinery was injured at the Dutch-Shell plant at Martinez last evening. A heavy iron plate dropped on Cramer's foot.

Get the Habit of Drinking Hot Water Before Breakfast

Says we can't look or feel right with the system full of poisons.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles if you could believe these hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated evry day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood causing headache, bilous attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.

Just as soap and hot water act on the skin, cleansing sweetening and freshening, so limestone phosphate and hot water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood while the bowel pores do.

KANSAS A UTOPIA; ONE CRIME, ONE FINE

HUTCHINSON, Kan., April 11.—Nickerson, a town of 1200, doesn't have much use for police judges and justices of the peace.

If Squire O. N. Joslin, who holds the combination job of judge of the police court and justice of the peace, didn't have a pension and some other income on the side, he would starve to death.

The sum total of the fees collected by these two courts during the last year aggregated 25 cents, Judge Joslin administered an oath to get that.

BUY A NEW DRESS WITHOUT WAITING

Perhaps you're like this young lady used to be—perhaps you have the habit of putting off all purchases until the "first of the month." It's a common enough habit, of course, and very natural, too—unless a woman has the wisdom to USE HER CREDIT.

That's what this girl did—USED HER CREDIT AT CHERRY'S. And she says she's going to do that way always from now on. It's so convenient, so simple, so logical.

The advantage of it is that, once you become a patron of CHERRY'S you'll never need to postpone getting the new clothes you want until "the first of the month." But your new Suit, your dainty Corduroys—NOW! Have them to wear right away and pay only a small part of the price down. CHERRY'S Credit System will help you to pay the balance without crippling yourself.

The Spring garments at CHERRY'S pretty shop are more fascinating than ever this season. There's not a single display in the whole store that will not appeal to every woman who knows style. The same easy weekly or monthly installments apply on everything.

CHERRY'S stores are conveniently located. The store at 515 13th street, between Washington and Clay streets, carries ladies' goods exclusively, and just across the street at No. 528 is the men's store. CHERRY'S also have two stores in San Francisco, one at 1009 Market street and the other at 2400 Mission street. These stores carry both ladies' and men's goods. Other stores—Portland, Los Angeles and Sacramento. —Advertisement.

EASY TO DARKEN YOUR GRAY HAIR

Try this! Brush Sage Tea and Sulphur Compound through your hair, taking on strand at a time.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is mussy and troublesome. For 50 cents you can buy at any drug store the ready-to-use preparation, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound and look years younger. This ready-to-use preparation is a delightful toilet requisite and not a medicine. It is not intended for the cure, mitigation or prevention of disease.

FREE CIRCUS TICKETS FOR RICHMOND CHILDREN

Whee-e-e-e, Kids!

How would you like to win tickets to the Al G. Barnes big four ring wild animal circus, the most marvelous circus in the world where lions and bears and tigers and leopards, and the funniest little monkeys and dogs ride horses?

Of course you want to win some of these tickets, and the Record-Herald is going to help you do it.

Now read this carefully, every word of it, and then get your pencil, ask papa or mama or teacher to help you, and get busy.

The Barnes circus, with wild animals doing all the things that humans used to do in circuses, is coming to Richmond on April 19. It will come into town on two railroad trains of cars double length. It will unload hundreds of the most beautiful animal cages, band wagons, calliopes and banners, and at 10:30 o'clock a. m. it will give the most glittering parade, a mile long, that was ever seen in Richmond.

Then it will give folks time to go home and eat a good dinner, after which they may go to the show grounds at 1 o'clock and see a most death-defying high dive by a dare-devil who is willing to risk his life each day to thrill you. This will be free.

Then will come an hour of band music, and the Barnes circus carries six concert and military bands. The doors of the circus open at 1 o'clock, and the seats provided for you are new, clean and have backs and foot rests. Electric light and electric fans make the big tent as brilliant and as comfortable as a huge theater.

At 2 o'clock the circus opens with the grand pageant in which the 1000 animals, 150 trainers, 506 attendants, 6 bands, the 40 clown animals including the cutest little baby elephant and his proud mama, "Holy Moses," the rare black camel, the 20 funny pigs, the 550 beautiful dancing ponies and marching horses will participate.

Following this will come 65 of the most amazing, death-defying, science-upsetting, side-splitting, heart-thrilling acts and features by wild animals handled by handsome men and beautiful women, you ever saw in your life, or will ever see so long as circuses are.

All the side show features, the happy spirit, the playing bands and funny clowns are there. It is a real old time circus made modern and wonderful.

Human clowns are funny, but just think of pigs being clowns, and dogs, and elephants, and mules, and even bears!

Then in the evening, the circus doors will open at 7 o'clock and the circus will begin at 8. And, mark you, you see just as much circus in the evening as you do in the afternoon. No tearing down of seats or moving of wagons while the show is going on. Mr. Barnes' men are there to entertain you, his wonderful animals are there to thrill and instruct you, and not a seat falls, not a wagon moves, nothing is done but look after your pleasure and your comfort until the last complete event of the entire program is over.

And everything is clean, wholesome, moral, elevating and refined.

Not a word, not an act, not an incident that is not of the most fastidious refinement.

Mr. Barnes has brought Arabian Nights, Anderson's Fairy Tales and Aesop's fables to life. His animals do everything, even to talking, in their own way. And he is bringing them all here for you to see.

Now for the conditions of the contest.

The letters contained in the sentence, "AL G. BARNES WILD ANIMAL CIRCUS PRIZE CONTEST," are to be used in spelling the names of wild animals.

WILDCAT DRILLING STARTED BY S. O.

Wildcat wells are being drilled again, so keen is the revival of the oil industry in California.

Standard Oil has started drilling two wildcats on the Pezzoni and Tognozzini, old-time land grants a few miles from Guadeloupe station and five or six miles west of the old field in the Santa Maria district, where many good wells have produced much wealth for the New Pennsylvania, the Pinal, the Dome and other oil companies. R. P. McLaughlin, supervisor of the State Oil Bureau, said yesterday that a number of other wildcat wells are being drilled, so keen is the desire to prove untested territory.

If either of the Standard Oil's wildcats should come in it is expected considerable development would follow in the Casmalia hills district.

Operations were started last week on twenty new wells in this state, according to reports received by McLaughlin, who says he has a list of 163 new drillings so far this year. Seven of last week's new operations are credited to Standard Oil, five of which are in the Midway field.

SLAUGHTER IS WORRIED; NEW TRIAL SOON

OROVILLE, April 12.—The second trial of Rev. Madison Slaughter, pastor of the Chico Baptist church, will commence in the superior court Tuesday, April 15th. The accused pastor will be tried on indictment No. 7346.

This is the offense, alleged to have been committed upon Gertrude Lamson on November 14th, and is the same offence with which the pastor was charged during his first trial. The jury refused to bring in a verdict of guilty unless probation was granted.

The motion to have the alleged offence of November tried again was made by District Attorney Leonard.

Attorney Schobler, representing Slaughter, moved that the minister be tried on indictment No. 7345, charging the alleged offense of November 6th, but this was overruled by the court.

Slaughter was in court. He appeared ill and deeply worried. He wore an overcoat, in the buttonhole of which was a red rose.

All the other charges were postponed until May.

TRY OUR HAMS—BONED AND ROLLED

MISS EMMA C. MILLER, THE ONLY WOMAN PRESS AGENT IN THE WORLD WHO IS TRAVELING AHEAD OF THE AL. G. BARNES GREAT ANIMAL CIRCUS WHICH WILL APPEAR IN THIS CITY NEXT WEDNESDAY, APRIL 19th.

THE ONLY WOMAN CIRCUS PRESS AGENT ARRIVES HERE

She arrived this morning, and take it from us she is some press agent.

Emma C. Miller, the only woman press agent for a circus, travels ahead of the Al. G. Barnes big aggregation of 1000 wild and domestic animals, telling the wonders of the show she so enthusiastically represents.

When insisted upon to tell us something about herself and how she happened to take up the press agent work she remarked:

"I have always loved animals and circuses and from the first time I ever heard of the Barnes wild animal show I wanted to be part of it. My people whose home is in Colorado, wanted me to be a grand opera star, and trained me along that line, but unfortunately diphtheria deprived me of my voice and I had to take up another line. As I never could win out in a beauty contest I realized I must use my personality and education to best advantage. I choose magazine work and special advertising features, as it is these qualifications that fitted me for the position I now hold.

"I had some difficulty in persuading Mr. Barnes a woman could take care of his press work as well as a man, but after I had submitted a few stories and talked to him, I was 'hired,' so that's how it was, and how I am a circus press agent."

It is one of the most fascinating vocations, always something new and it keeps you on the job all the time. Your mind must ever be alert to size up a situation and take advantage of whatever publicity there is in it.

The newspaper men are the finest class of men; I find them so courteous and obliging and their business gives them a broad range of thoughts and ideas, making them most delightful people to know.

But her I must stop talking about myself.
